

In 1997 my family and I moved from Page, Arizona to Orland, California to start farming a 30-acre Pistachio orchard.

Since purchasing the orchard 1997, I have been hands on owner and operator of the family's pistachio orchard. This includes all aspects of farming and harvesting our Pistachios.

In 2018, I was honored to be appointed as an alternate for Administrative Committee for Pistachio's for District 3. For the past 4 years I have continued to learn about the pistachio industry through the Committee meetings.

My love of farming pistachios has energized my passion to learn more about the Pistachio Industry. With the continuous increases in regulatory requirements within the agricultural industry it has become necessary to become an active and participating member. It is my goal to keep (Pistachio's) agriculture profitable and viable for future generations.

For twelve years I served as the Executive Director of the Glenn County Farm Bureau and for 12 years I served as a 42nd District Agriculture Association Board Member. Along with growing pistachio's I am an Insurance Agent specializing in Farm and Crop Insurance.
